OTTOKIND

CLEAN AND TOOL SHUTTLE

Ergonomic workplace systems adapted to individual requirements

6 good reasons for OTTO KIND

1 OTTO**KIND-catalogues**

Complete furniture solutions for Factory | Warehouse | Archive. Our catalogues give you an insight into how perfect our products could be for you.

2 OTTO**KIND-consulting**

Locations all over the globe, with expert advice available in English, German and other languages.

3 OTTO**KIND-planning**

See your solution before you decide. Our expert design team will give you a 3D view with their ergonomic expertise and knowledge of existing regulations and standards.

4 OTTO**KIND-production**

High quality branded products “made in Germany”. Production using flexible machinery enables you to receive bespoke, requirement-specific systems!

5 OTTO**KIND-deliveries**

Dependable direct delivery to the end user. Reliable service packages from our logistics partners mean that you can feel secure in the knowledge that your delivery will arrive safely.

6 OTTO**KIND-assembly**

Quick and professional fitting on site. Our installation team ensures that your equipment is secure, safe and ready to use.

We guarantee top OTTOKIND quality

Full service from a single source

We support our customers from project planning to final assembly.
We manufacture special designs - just like our system solutions – in-house.
This enables us to meet all of your needs from concept until completion.

Environmentally friendly procedure

In order to protect the environment, we deploy efficient powder coating equipment.
Because all our products are supplied from our premises in Germany, we can ensure that the quality is always perfect.

State-of-the-art production

OTTO**KIND** has stood for proven product quality and high quality branded products „made in Germany“ for more than 100 years. For this, we use our flexible machinery.

Certified OTTO**KIND quality**

DIN EN ISO 9001: 2008

The manufacturing processes for our steel products are subject to a quality management system which meets the requirements of DIN EN ISO 9001:2008. This also applies to the entirety of the sales and marketing structure as well as all processes in the company. Our certification was carried out by DQS GmbH, Frankfurt.

RAL-RG 614

The RAL-RG 614 quality seal from the Gütegemeinschaft Lager- und Betriebseinrichtungen e.V. (Quality Association for Warehouse and Factory Equipment) for our shelving, drawer cabinets and lockers product lines confirms our
- compliance with the current requirements relating to loading and product safety
- use of materials that comply with the relevant standards
- development, production and assembly are performed exclusively by qualified staff
- inspections by independent testing institutes ensure that consistent product quality is maintained.

BGR 234 (Employers' Liability Insurance Association Guideline 234)

OTTO**KIND** warehouse equipment complies with the safety guidelines for warehouse facilities and equipment from the commercial employers' liability insurance associations.

Equipment options

The OTTO**KIND** Clean and Tool Shuttles are mobile, universal supply stations. They are suitable for tools, detergents or generally for goods that need to be transported quickly within the company.
OTTO**KIND** Clean und Tool Shuttles are not specified for a single purpose.
The square and slotted holes in the vertical walls accommodate commercially available tool holders and many different equipment options from the OTTOKIND system modules. The flexibility makes it possible to cover many different uses with a single system and to adapt quickly to new requirements if necessary. The optional pagoda roof prevents objects being stored on top of the housing. It give s a fresh, colorful emphasis - also with logo on request! The high-quality welded sheet steel construction guarantees a long service life and ensures high durability.

- can be used for mobile cleanliness and mobile tools
- Stable, welded sheet steel construction
- environmentally friendly powder coating, fired at 180° C
- central wall and outsides with square and slotted holes for tool holders and various equipment elements
- square holes 10 x 10 mm in a grid of 38 mm
- 4 rolls with 125 mm diameter, solid rubber tread, traceless, with total lock and thread protection
- 4 integrated handles ensure safe handling
- with or without pagoda roof, standard roof: with OTTO**KIND** logo or without logo, with your own logo on request
- central partition at 300 mm or offset, asymmetrical partition at 400 | 200 mm
- total load 300 kg

W x D x H: 745 x 650 x 1720 mm

VARIETY OF COLOURS
